Do you want to talk to a Scientist?
How about Skype a Scientist?
Here's how...

1. Pick a topic
2. Sign up here: skypeascientist.com/get-involved.html or scan the QR Code below
3. Get a match in your inbox
4. Talk about SCIENCE!!

P.S. IT'S FREE!!

Blended Learning Spotlight

Flipgrid is a video tool that allows teachers to post "Topics" that prompt students to respond, using rich media. This tool is free and easily integrates into Google Classroom. By allowing students to record and re-record responses, students feel more comfortable and empowered to present effectively.

Mrs. Matherne-Mangus, of Westside Junior High, has utilized Flipgrid as a platform for student voice, while fostering student engagement. Her students were required to create a PSA using Flipgrid for a recent science lesson on pollution.

For more information on her activity, a basic rubric, and her teacher tips, visit bit.ly/3EKGzUW
For general information about using Flipgrid in your classroom, visit bit.ly/3MwPYSv
